Usage and Application of Lemonade 5

Lemonade 5's effectiveness is partly due to its ease of use. Here's a general guide for different applications:

- **Degreasing:** For heavy grease removal, apply Lemonade 5 directly to the soiled surface, allowing it to dwell for a few minutes before scrubbing with a suitable brush or cloth. Rinse thoroughly with water. For particularly stubborn grease, a pre-soaking treatment may enhance results.
- **General Cleaning:** Dilute Lemonade 5 according to the manufacturer's

instructions (usually a specific ratio of product to water). Apply the diluted solution to the surface and wipe or scrub as needed. Rinse thoroughly with clean water. This all-purpose cleaning approach works effectively on most non-porous surfaces.

- **Specific Applications:** Consult the product label for specific dilution ratios and application instructions for different surfaces and materials (e.g., glass, stainless steel, etc.).

Safety Precautions and Considerations

While Lemonade 5 is generally safe, adhering to standard safety precautions is crucial:

- **Always wear appropriate protective gloves:** This prevents skin irritation from prolonged contact.
- **Ensure adequate ventilation:** Work in a well-ventilated area to avoid inhalation of any potential fumes.

- **Keep out of reach of children and pets:** Store Lemonade 5 in a secure location away from children and animals.
- **Test in an inconspicuous area:** Before applying Lemonade 5 to a large surface, test it in a small, hidden area to check for compatibility and potential reactions.
- **Follow label instructions carefully:** Adhere strictly to the manufacturer's instructions for dilution and application to ensure optimal results and safety.
