This goes beyond simply "sharpening the saw" to actively seeking out new tools and approaches to stay ahead.

Digital Wellbeing and Information Management: Navigating the Information Overload

The sheer volume of information available online can be overwhelming. Developing effective strategies for managing digital distractions and curating information is critical. This involves setting boundaries with technology, prioritizing information sources, and cultivating digital mindfulness—a skill set decidedly *beyond the 7 Habits* that are crucial for productivity and mental clarity in the modern world.
